Erik-- Please call the police dept of the city of Roselle and find out what they are saying to the residents. If we know what they are doing, maybe we can talk with them or come up with another solution.

I just spoke with a woman that was enrolled by one of our feet on the street people in Roselle. She said the day after she signed up, she received an automated message from the Village of Roselle Police Department to beware of Santanna solicitors. From what I gathered, this message instructed them to not sign anything and be very specific in asking for credentials, etc. I didn't know if you had heard about this or not but thought that you should. If one Village is issuing warnings about us and our services, there may be others. Just an FYI.
